

Carely.AI Privacy & Security

Carely.AI is committed to adhering to the HIPAA Standards for Privacy, Electronic Transactions, and Security, including the HITECH Act and the Omnibus Rule of 2013. We recognize the importance of compliance as a key responsibility in our business operations.

Compliance and Continuous Monitoring

- Carely.AI has implemented comprehensive policies, processes, and procedures designed to ensure compliance with Federal security laws, regulations, and rules.
- Our ongoing compliance efforts are continuously monitored, and we maintain various reporting mechanisms that are required by law or requested by our customers.
- We are dedicated to providing all our services in accordance with the relevant requirements of all federal laws and regulations, including HIPAA.

Commitment to Privacy and Security

- Understanding the critical nature of privacy and security in healthcare, Carely.AI ensures that all programs and services are fully compliant with HIPAA.
- We engage in regular updates and reviews of our compliance processes to stay aligned with evolving regulations and standards.

Contact for Compliance Inquiries

- Questions regarding our HIPAA policies or compliance efforts can be directly addressed to the responsible team.
